Material Safety Data Sheet (MSDS)

Revision Number: 2.0		Last updated	Jan 11 2018
1. Product and Company Iden	tification_	1	
Product Name:		uor 594 hydrazide * TFA salt	
Manufacturer/Supplier:	AnaSpec, Ir www.anasp	<u>ec.com</u>	
	34801 Cam Fremont, C	A 94555	
	Tel: 510-79 Fax: 510-79	91-9572	
Catalog Number	AS-81274	ice@anaspec.com	
2. Hazards Identification	l		
0.	-	all chemicals with caution. Use proper prot e, the hazards of this material have not been	
GHS Hazard Classification: GHS Physical Hazards:			
GHS Health and Environmer	ntal Hazards		
GHS Signal Words: WARNIN	3		
GHS Hazard Statements:			
H303,I	H313, Maybe harmful	if swallowed or in contact with skin. Wear I	PPE.

GHS Hazard Symbol/Pictogram:		
		\wedge
GHS Precaution	ary Statements:	
	P210	Keep away from heat/sparks/open flames/hot surfaces. No smoking.
	P261 P264	Avoid breathing dust/fume/gas/mist/vapours/spray. Wash skin thoroughly after handling.
	P280	Wear protective gloves/protective clothing/ eye protection/ face protection
	P304+P34	 52 IF ON SKIN: Wash with plenty of soap and water. 40 IF INHALED: Remove victim to fresh air and keep at rest in a position Comfortable for breathing. 51+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
		13 If skin irritation occurs: Get medical advice/ attention.13 If eye irritation persists: Get medical advice/attention.
	P403+P2 P501 I	33 Store in well-ventilated place. Keep containers tightly closed. Dispose of contents/containers to an approved waste disposal plant.
oxy	haled, remove to fresh a	ir. If not breathing, give artificial respiration. If breathing is difficult, give stice requires that exposure be kept to a minimum and that suitable control upational setting.
Ingestion: If sw	vallowed, wash out mou	th with water provided person is conscious. Call a physician.
Skin: In case of	contact, immediately wa	sh skin with soap and copious amount of water.
Eyes: In case of	contact, immediately flu	sh eyes with copious amounts of water for at least 15 minutes.
Chronic Exposur	res: No information ava	ilable. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0 Chronic Health Hazard: 0 Flammability: 0 Physical hazards: 0

NFPA Rating

Health hazard: 0 Fire: 0 Reactivity Hazard: 0

3. Composition

Ingredients/Components:

Chemical Name:

HiLyte Fluor 594 hydrazide – TFA Salt Molecular formula: N/A Molecular weight: 879.9 CAS-No N/A EC-No N/A

4. First Aid Measures

If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comforta drink. Seek medical advice. Skin: If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. Eyes: If this product comes in contact with the eyes: Wash out immediately with fresh running water.		
If irritation or discomfort persists seek medical attention. Ingestion: If swallowed do NOT induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comforta drink. Seek medical advice. Skin: If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. Eyes: If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.	Inhalation:	If dust is inhaled, remove from contaminated area.
Ingestion: If swallowed do NOT induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comforta drink. Seek medical advice. Skin: If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. Eyes: If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.		Encourage patient to blow nose to ensure clear passage of breathing.
If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comforta drink. Seek medical advice. Skin: If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. Eyes: If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.		If irritation or discomfort persists seek medical attention.
maintain open airway and prevent aspiration. Observe the patient carefully. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortal drink. Seek medical advice. Skin: If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. Eyes: If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.	Ingestion:	If swallowed do NOT induce vomiting.
Observe the patient carefully. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortal drink. Seek medical advice. Skin: If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. Eyes: If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.	-	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to
Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortal drink. Seek medical advice. Skin: If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. Eyes: If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.		drink.
Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. Eyes: If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.		Seek medical advice.
Seek medical attention in event of irritation. Eyes: If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.	Skin:	If skin or hair contact occurs:
Eyes:If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.		Flush skin and hair with running water (and soap if available).
Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.		Seek medical attention in event of irritation.
Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.	Eyes:	If this product comes in contact with the eyes:
eyelids by occasionally lifting the upper and lower lids.		Wash out immediately with fresh running water.
		Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the
If pain persists or recurs seek medical attention.		eyelids by occasionally lifting the upper and lower lids.
		If pain persists or recurs seek medical attention.

Extinguishing media:	Water spray or fog.
0 0	Alcohol resistant foam.
	Dry chemical powder.
	BCF (where regulations permit).
	Carbon dioxide
Special firefighting procedures:	Alert Emergency Responders and tell them location and nature of
	hazard.
	Wear breathing apparatus plus protective gloves.
	Prevent, by any means available, spillage from entering drains or water course.
	Use water delivered as a fine spray to control fire and cool adjacent area.
	DO NOT approach containers suspected to be hot.
	Cool fire exposed containers with water spray from a protected
	location.
	If safe to do so, remove containers from path of fire.
	Equipment should be thoroughly decontaminated after use.
	Equipment should be thoroughly decontaininated after use.
Unusual fire and explosions hazards:	Emits toxic fumes under fire conditions

6. Accidental Release Measures

Spill response	Remove all ignition sources.
	Clean up all spills immediately.
	Avoid contact with skin and eyes.
	Control personal contact by using protective equipment.
	Use dry clean up procedures and avoid generating dust.
	Place in a suitable, labeled container for waste disposal
Containment	Avoid all personal contact, including inhalation.
	Wear protective clothing when risk of exposure occurs.
	Use in a well-ventilated area.
	DO NOT enter confined spaces until atmosphere has been checked.
	DO NOT allow material to contact humans, exposed food or food utensils.
	Avoid contact with incompatible materials.
	When handling, DO NOT eat, drink or smoke.
	Keep containers securely sealed when not in use.
	Avoid physical damage to containers.
	Always wash hands with soap and water after handling.
	Use good occupational work practice.
	Empty containers may contain residual dust which has the potential to accumulate
	following settling. Such dusts may explode in the presence of an appropriate
	ignition source.
	Do NOT cut, drill, grind or weld such containers
PPE	Use personal protective equipment

7. Handling and Storage

Store at -20 °C desiccated and protected from light. Store away from oxidizing agent.

8. Exposure Controls / Personal Protection		8.	Exposure	Controls /	Personal	Protection	
--	--	----	----------	------------	----------	------------	--

Engineering controls	Local exhaust ventilation is required where solids are handled as powders or crystals;
	even when particulates are relatively large, a certain proportion will be powdered by
	mutual friction.
	Exhaust ventilation should be designed to prevent accumulation and re-circulation of
	particulates in the workplace.
	If in spite of local exhaust an adverse concentration of the substance in air could occur,
	respiratory protection should be considered. Such protection might consist of:
	(a): particle dust respirators, if necessary, combined with an absorption cartridge;
	(b): filter respirators with absorption cartridge or canister of the right type;
	(c): fresh-air hoods or masks
	Build-up of electrostatic charge on the dust particle, may be prevented by bonding and
	grounding.
	Powder handling equipment such as dust collectors, dryers and mills may require
	additional protection measures such as explosion venting.
	Air contaminants generated in the workplace possess varying "escape" velocities which,
	in turn, determine the "capture velocities" of fresh circulating air required to efficiently
	remove the contaminant.
PPE	Use personal protective equipment

9. Physical and Chemical Properties

Physical State	Dark purple solid
Odour	Not available
Solubility in Water	Not available
Specific Gravity	Not available
рН	Not available
Boiling Point	Not available
Melting Point	Not available
Flash Point	N/A
Vapor Pressure:	N/A
Vapor Density:	N/A

10. Stability and Reactivity

Thermal Decomposition	No data available
Dangerous Products of Decomposition	No data available
Dangerous Reactions	COx, NOx when burned

Keep container tightly closed in a dry well-ventilated place. Store in -20°C refrigerator.

11. Toxicological Information

RTECS Number	N/A
Toxicity	No information available.

Health Hazards	Although ingestion is not thought to produce harmful
	effects, the material may still be damaging to the
	health of the individual following ingestion, especially
	where pre-existing organ (e.g. liver, kidney)
	damage is evident. In an occupational setting however,
	ingestion of insignificant quantities is not thought to be
	cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity:

No information available

12. Ecological Information

No information available.

<u>13. Disposal Considerations</u>

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

15. Regulatory Information

California Proposition 65: N/A US TSCA (Toxic Substance Control Act): N/A US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A US SARA Title III (Superfund Amendments and Reauthorization Act: N/A US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The
